

Sandumi Sathdahara Godage

About Me

As a first year computer science undergraduate at Informatics Institute of Technology I look forward to learn and pursue my passion for modern technologies and new trends. My goal is to gain valuable experience and eventually use my education to develop my skills in a challenging environment.

Education

Bachelor of Computer Science

University of Westminster

2024 - 2027

Primary Education

Good Shepherd Convent Kandy

2010 - 2023

Experience

Former intern at Sampath Bank PLC

Sept 2023 - Dec 2023

Gained hands-on experience at Sampath Bank PLC, where I focused on promoting the Sampath Bank mobile application. This role sharpened my communication skills and deepened my understanding of digital banking solutions.

Soft Skills

- Strong Communication Skills
- Attention to Detail
- Creativity and Teamwork

Projects

- **Student Management System**

As a java development project, I built a Student Management system to register students for a particular university intake. The users can find, delete, update, store, load, and view the list of students after sorting by name. This project was helpful in showcasing my ability to deliver solutions for real world problems.

- **A Website for Promoting Health and well-being**

Developed a website named "Vital Spark" focused on promoting good health and well-being. Designed the website with a modern and clean aesthetic, employing color gradients and CSS animations to enhance visual appeal.

- **Personal Finance Tracker**

Developed a "Personal Finance Tracker" application using Python, with Tkinter for the graphical user interface (GUI). This project allows users to track income and expenses, visualize data, and manage budgets, demonstrating my ability to create practical solutions.

Certificates and Courses

- **Technical Support Fundamentals**
